

Accessing Outlook Webmail from Non – FAST pc.

1. Open <http://rcm.fluor.com/advanced.htm>
2. Select Asia Pacific

Welcome to the Fluor Remote Connection Manager VPN (RCM)

RCM with Advanced Access
 RCM with Advanced Access allows secure access to the online resources listed above PLUS network-based resources (work files stored on the network). To use RCM with Advanced Access, Network Connect (a small application) will be installed on your computer. Network Connect will be installed on your computer once authenticated with a SecurID token.

To access RCM with Advanced Access, please select the option closest to your current location:

- [North and South America](#)
- [Europe, Middle-East, Africa](#)
- [Asia Pacific](#)

If you need additional access beyond RCM with Advanced Access to support Fluor systems, please send an email with your list of applications and systems you will need to use. Please also include the business justification.

3. Enter your windows UNID (ABC12345) and
4. Enter your 4 digit pin followed by the 6 digits displayed on your RSA token.

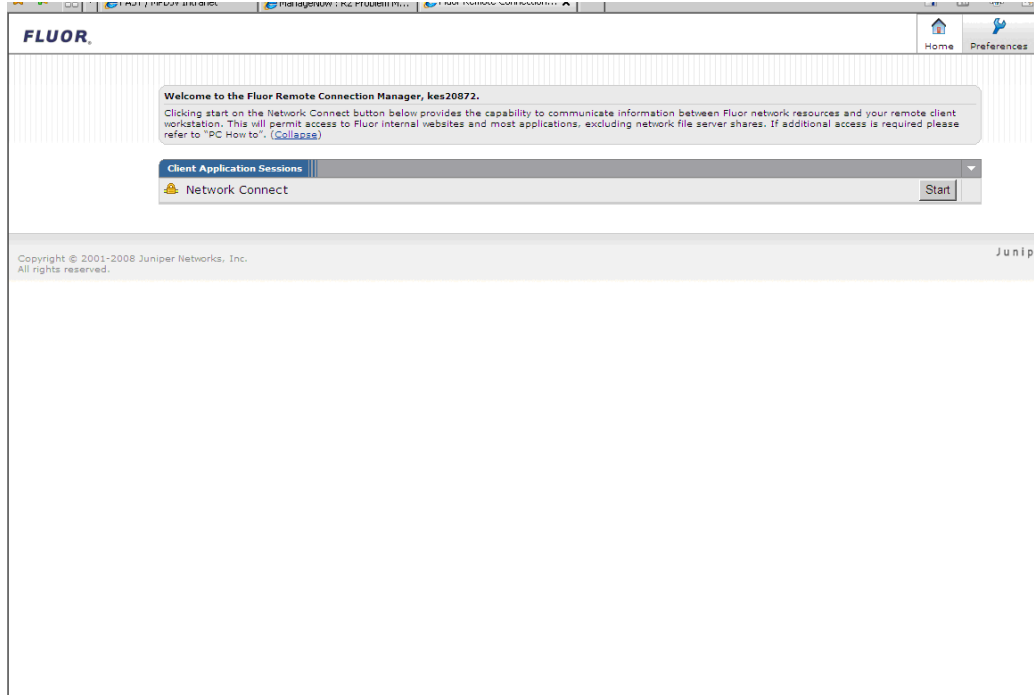

Welcome to the Fluor Remote Connection Manager

UserID: (e.g. abc12345)

Passcode: (RSA SecurID Pin + Passcode)
