

is your career ore-inspiring?

FAST is a dynamic, innovative and truly unique partnership between global business leaders Fluor and SKM.

“Being part of an inspiring team working on arguably one of the most exciting resource projects in the world is an amazing opportunity.”

**Peter Corboy,
Project Engineer,
Iron Ore
Growth Projects**

Are you looking for a long-term role in the iron ore industry? Would you like to join the team that's helping to grow BHP Billiton Iron Ore's production capacity?

Become a member of the FAST team and embark on a career-changing journey characterised by opportunity and innovation. In partnership with BHP Billiton Iron Ore, you will have the chance to work on several ground-breaking projects including:

- The construction of Jimblebar mine. Located 40 kilometres east of Newman, this development work encompasses a new ore processing plant, the procurement of mining equipment and new rolling stock to deliver massive capacity growth over the next four years; and
- The ongoing development of Port Hedland Inner Harbour, with the construction of new shipping berths, shiploaders, car dumpers and port blending infrastructure.

Some of the roles currently available include:

**ENGINEERING MANAGERS
PROJECT MANAGERS
PROJECT ENGINEERS
ENGINEERS & DESIGNERS - ALL DISCIPLINES
PROJECT CONTROLS**
